lady LASH
LUXURY EYELASHES

The LadyLash lash brand with the renewed and innovative product sortiment represents the high quality and the luxury look. Our mission is to be widely available for ladies of the world and to deliver the luxurious spirit of the moment with providing a real service.

ladyLASH

Wide range of lashes and accessories provide the proper supplies to the preparation and construction process and also to the home after-care. Among our lash products you will find the suitable for every set from the classic lashes through the color lashes to mega volume lashes.

The LadyLash lashes are made from light-weight, antiallergic synthetic materials so they fully look like real, natural eyelashes. The false lashes are durable and resistant to external influences.

Our materials represent the international high quality and follow the latest trends in classic, volume and mega volume technic. Our latest novelty, the Camellia lashes already has great success among the women, the special technic provides a totally new look with its different length of lashes. Also the revolutionary 3 layer lash extension technic and the lower lash application technic are in the LadyLash education palette.

We hope that more and more lash expert and women follow our philosophy and represent with us the LadyLash luxury look!

CLASSIC TECHNIC

The classic technic is the traditional one-to-one technic also called 1D technic. It means that the stylist apply 1 false lash to 1 natural lash. For this technic choose from our Mixed Size Classic Lashes. With classic technic spectacular, though yet modest, in everyday life wearable set can be built.

VOLUME TECHNIC

The volume technic is the key to the application of more lashes to one natural lash. We call this technic 2D, 3D, 4D etc. according to the number of applied lashes to one natural lash. In our superlight and thin Mixed Size Volume Lash sortiment you surely find the proper to your guests.

CAMELLIA LASH

Camellia lash combines the spectacle of volume technic with the natural look. The different lengths of Camellia lashes imitate the natural growth cycle of lashes. In the special tray of Camellia, in each row 3 different lengths can be found, applicate they lashes together and get the most natural lash set so far.
